Date Specification Last Updated	April 2019

Course Aims and Learning Outcomes

This course is designed to give you the opportunity to:

1. enjoy a stimulating and engaging introduction to a broad range of multidisciplinary contemporary social science learning and teaching
2. develop the necessary practical, intellectual and communication core skills necessary for the study of various disciplines in preparation for Level 4
3. build on the personal attributes necessary for independent learning and study to form the basis of future skill development in level 4

4. prepare for a successful transition to a full degree course
5. stimulate engagement and participation in the learning process and make use of constructive feedback for personal development
6. enable completion of Level 3 within the academic year;
7. prepare for future employability and enhance personal and professional development.

What you will learn:

Knowledge

8. the necessary personal and academic skills to be successful in Level 3 of a Social Sciences course
9. subject-specific knowledge in your chosen area(s) of study
10. how to manage one's own learning, professional and personal development
11. skills of manipulation of knowledge to make an informed judgement
12. how to work beyond routine and defined contexts

Thinking skills

13. how to apply what you have learnt to familiar contexts
14. how to apply what you have learnt to unfamiliar contexts
15. how to critically reflect on your own learning and performance
16. how to identify different points of view in specified texts
17. how to summarise arguments
18. how to make informed judgements and distinguish between fact and opinion
19. how to develop your own point of view in relation to specified texts

Subject-Based Practical skills

20. skills of understanding and analysing social issues and the processes that underpin social change and stability in various communities
21. skills of understanding and analysing the different interpretations of national and world events
22. use of Information Technology and the Internet for information retrieval and presentation
23. Present and interpret basic qualitative and quantitative data.

24. ability to conduct informed debate on current social issues

Skills for life and work (general skills)

25. how to organise and manage a workload effectively
26. how to locate and select sources of information for written work/research
27. how to work collaboratively
28. how to give oral presentations
29. learning how to apply skills gained both with autonomy and direct supervision
30. have the ability to understand the ethical implications of sociological enquiry

Learning and Teaching

Knowledge is developed through

31. presentation of frameworks of information in lectures
32. student centred seminar discussions
33. reading of specified texts on a weekly basis
34. use of a virtual learning environment
35. external visits and visitors
36. preparing for assessments

Thinking skills are developed through

- close analysis of specified texts
- individual and small group exercises in seminar sessions
- individual and small group presentations
- use of virtual learning environment
- preparing for assessments

Practical skills are developed through

37. working with others in workshops
38. using ICT skills to search the web and use analytical and presentation software
39. carrying out data collection exercises
40. constructing research reports
41. preparing for assessment

Skills for life and work (general skills) are developed through

1. individual and small group activities in seminar sessions
 2. tutorials to discuss individual progress
 3. interactions with external visitors and visiting external organisations
 4. group project work
- preparing for assessments

Assessment

Knowledge is assessed by

- coursework (portfolios, reviews, essays, research project), presentations
- class tests, exercises undertaken in seminar sessions

Thinking skills are assessed by

- coursework, (portfolios, reviews, essays, research project), presentations
- class tests, exercises undertaken in seminar sessions

Practical skills are assessed by

- evidence of demonstrable understanding in completed work and/or assessments

Skills for life and work (general skills) are assessed by

- involvement in and contribution to tutorials, visits, seminar/workshop sessions

Students with disabilities and/or particular learning needs should discuss assessments with the Course Leader to ensure they are able to fully engage with all assessment within the course.

Work or Study Placements

Students are encouraged to register with the volunteer hub and to plan to build a portfolio of voluntary work during their undergraduate course.

The course includes a course of visits to community organisations and external visits from people working in contexts where social science graduates have progressed in their careers. These aim at preparing students for future placements as they move through levels 4-6.

Course Structure

The course is designed as a 1-year FT/2-year PT course for progression onto a 3 year FT or 4 year PT degree. There is flexibility and scope in choice of degree course and there are also opportunities for work placements on some of the 3 year degrees.

All courses are credit-rated to help you to understand the amount and level of study that is needed.

One credit is equal to 10 hours of directed study time (this includes everything you do e.g. lecture, seminar and private study).

Credits are assigned to one of 5 levels:

- 3 Equivalent in standard to GCE 'A' level and is intended to prepare students for year one of an undergraduate degree course.
- 4 Equivalent in standard to the first year of a full-time undergraduate degree course.
- 5 Equivalent in standard to the second year of a full-time undergraduate degree course.
- 6 Equivalent in standard to the third year of a full-time undergraduate degree course.
- 7 Equivalent in standard to a Masters degree.

Courses are made up of modules that are each credit weighted.

The module structure of this course:

Level	Module Code	Module Title	Credit Weighting	Core/Option	Available by Distance Learning? Y/N
3	SY3000	Knowledge, Skills, Practice and the Self: Professional Life: Mental Wealth	20	Core	N
3	SY3001	Exploring Communities as Social Scientists.	20	Core	N
3	SY3003	Researching Changing Communities	20	Core	N
3	SY3004	Reimagining the Work of a Social Scientist	20	Core	N
3	SY3007	Crime, Justice and Surveillance	20	Option	N
3	SY3002	Reading the Body Psychosocially	20	Option	N
3	SY3005	Introduction to Digital Sociology	20	Option	N
3	SY3006	Globalisation & Society	20	Option	N

Please note: Optional modules might not run every year, the course team will decide on an annual basis which options will be running, based on student demand and academic factors, in order to create the best learning experience.

Additional detail about the course module structure:

A core module for a course is a module which a student must have passed (i.e. been awarded credit) in order to achieve the relevant named award. An optional module for a course is a module selected from a range of modules available on the course.

How the teaching year is divided

The teaching year begins in September and ends in June

A typical student, in full-time attendance mode of study, will register for 120 credits in an academic year. A student in a part-time mode of study may register for up to 90 credits in any academic year.

What you will study when

A student registered in a full-time attendance mode will take 120 credits per year. Typically this will be comprised of six 20 credit modules. An honours degree student will complete modules totalling 120 credits at level four, modules totalling 120 credits at level five and modules totalling 120 credits at level six.

The overall credit-rating of this course is 120 credits. If for some reason you are unable to achieve this credit you may be entitled to an intermediate award, the level of the award will depend on the amount of credit you have accumulated. You can read the University Student Policies and Regulations on the UEL website.

Course Specific Regulations

In order to complete the Level 3 Course successfully, students will be expected to obtain passes in modules totalling 120 credits. Students must pass four core modules and two option modules.

The Foundation Course is linked to a named Honours Degree onto which a student may progress after successful completion of this level.

Typical Duration

It is possible to move from full-time to part-time study and vice-versa to accommodate any external factors such as financial constraints or domestic commitments. Many of our students make use of this flexibility and this may impact on the overall duration of their study period.

The expected duration of this Foundation course is 1 year full-time or two years part-time.

Further Information

More information about this course is available from:

- The UEL web site (www.uel.ac.uk)
- The course handbook
- Module study guides
- UEL Manual of General Regulations (available on the UEL website)
- UEL Quality Manual (available on the UEL website)
- School web pages

All UEL courses are subject to thorough course approval procedures before we allow them to commence. We also constantly monitor, review and enhance our courses by listening to student and employer views and the views of external examiners and advisors.

Additional costs:

The course includes walks and visits to locations off campus. Whilst entrance fees will be covered, you will need to pay for public transport within London.
