Credits are assigned to one of 5 levels:

3  Equivalent in standard to GCE 'A' level and is intended to prepare students for year one of an undergraduate degree course.

4  Equivalent in standard to the first year of a full-time undergraduate degree course.

5  Equivalent in standard to the second year of a full-time undergraduate degree course.

A core module for a course is a module which a student must have passed (i.e. been awarded credit) in order to achieve the relevant named award. An optional module for a course is a module selected from a range of modules available on the course.

The overall credit-rating of this course is 180 credits. If for some reason you are unable to achieve this credit you may be entitled to an intermediate award, the level of the award will depend on the amount of credit you have accumulated. You can read the University Student Policies and Regulations on the UEL website.

Course Specific Regulations

Pass compensation regulations will not apply to core modules of this course as the professional body (i.e. CMI currently does not allow pass compensation on core modules).
