If yes, please provide further details below including the institution, dates of attendance and reason for leaving.

The Health and Care Professions Council (HCPC) requires that candidates who are being admitted to the course have undertaken:

- a) enhanced criminal conviction checks by the DBS (Disclosure and Barring Service) or an equivalent international body; and
- b) a health check, usually by means of a self-declaration, but with an additional statement from a GP or consultant where necessary about specific events.

Failure to provide accurate information may lead to withdrawal from the course.

GUIDANCE NOTES FOR ENHANCED CRIMINAL CONVICTION CHECKS DECLARATION FORM

1. Every candidate invited to attend for interview must complete this form whether they have a previous conviction or not. Previous convictions include warnings, reprimands and some driving offences.
2. For candidates who have previously been convicted of a criminal offence, or disclose a pending court appearance or current charge:
 - a) Any details that you provide will be treated in the strictest confidence and will not automatically exclude you from being considered for this or any course.
 - b) We may wish to ask you about any disclosures during your individual interview.
3. The amendments to the Rehabilitation of Offenders Act 1974 provide that certain spent convictions and cautions are 'protected' and are not subject to disclosure to employers, and cannot be taken into account. For details see [DBS \(Disclosure and Barring Service\) website](#).
4. You must provide information on convictions within the armed services, outside the United Kingdom.

Please note:

- Having a criminal conviction does not automatically bar you from entering the course but it does depend on the nature of the offence and when it occurred
- If information later comes to light that is not declared now, this may lead to withdrawal from the course
- We will need to be informed of any matters arising after the date of this declaration (work related disciplinary matters and protection of children and people who use services or criminal charges/caution)

A conviction does not automatically debar applicants from the course and we will seek further information about the circumstances to make an informed and considered judgement about a candidate's suitability in such instances.

PART D: Personal health and circumstances

We need to ensure that students selected for this course have sufficient stamina to manage both the rigours of the training and the challenges of professional life. Successful completion of the course requires full participation at university and at practice learning placements. The practice element is often undertaken with people who are vulnerable, at risk, or whose capacity to manage their own affairs is temporarily or permanently impaired. Accordingly, the course is required to ensure that all students are capable of enduring the demands of training and do not present any threat to the safety of service users, or to themselves.

Please note: You are not required to make a declaration about health problems that do not impinge upon your capacity to study or practice, or that in the normal course of your duties, would not present a risk to others. If you do have health needs which are declared at the point of admission or during your course of studies the University will seek to ensure all reasonable adjustments are made in line with equality and diversity law. However, in accordance with the requirements of the Health and Care Professions Council (HCPC) standards must be maintained to protect the public and ensure safe and effective practice. The HCPC asks that course providers ensure that applicants accepted are in good physical and mental health. To this end, we at UEL, ask that candidates for our course to sign this declaration of good health. We may also ask for medical verification in relation to this declaration.

In the case of medical conditions, with your consent, further information may be sought from your doctor, or a medical consultant. We may also seek advice from our own medical and occupational health officers.
