

## PROJECT INFORMATION SHEET

**Research: OMNIBUS: Exploring Learner Journeys through Higher Education – a joint project between UEL, Brunel and Roehampton Universities**

### University of East London (UEL)

Docklands Campus, 4-6 University Way, London, E16 2RD

### UEL University Research Ethics Committee (UREC)

If you have any queries regarding the conduct of the research in which you are being asked to participate, please contact:

Catherine Fieulleteau, Research Integrity and Ethics Manager, Graduate School, EB 1.43  
University of East London, Docklands Campus, London E16 2RD  
Tel: 020 8223 6683, Email: [researchethics@uel.ac.uk](mailto:researchethics@uel.ac.uk)

### Project Coordinators

**UEL** Anthony Hudson, Continuum Research Manager, University of East London, 4-6 University Way, London, E16 2RD  
Tel: 020 8223 7772, Email: [a.hudson@uel.ac.uk](mailto:a.hudson@uel.ac.uk)

**Brunel** Monica Fernandes, Head of Academic Skills Development, Bannerman Centre, Brunel University London, Uxbridge, UB8 3PH  
Tel: 01895 266147, Email: [Monica.Fernandes@brunel.ac.uk](mailto:Monica.Fernandes@brunel.ac.uk)

**Roehampton** Professor Garry Marvin, Chair University Ethics Committee, Department of Life Sciences, University of Roehampton,  
Tel: 020 8392 3170, Email: [g.marvin@roehampton.ac.uk](mailto:g.marvin@roehampton.ac.uk)

Jo Peat, Head of Academic Professional Development Learning and Teaching Enhancement Unit, University of Roehampton  
Tel: 020 8392 3237, Email: [j.peat@roehampton.ac.uk](mailto:j.peat@roehampton.ac.uk)

### **Consent to Participate in a Research Study**

The purpose of this briefing note is to provide you with the information that you need to consider in deciding whether to participate in this research.

### **Project Title**

OMNIBUS: Exploring Learner Journeys through Higher Education

### **Project Description**

The OMNIBUS Learning Gain study is one of a suite of projects funded by the Higher Education Funding Council for England (HEFCE). Further details on the HEFCE Learning Gain research projects, which aim to develop and test measures of learning gain to improve the range of indicators on the outcomes and impacts of higher education (HE), can be found on the HEFCE web site (<http://www.hefce.ac.uk/lit/lq/>). As part of this research, we will be looking at the attainment of different groups of students and considering the impact that support measures may have on outcomes.

UEL is leading this collaborative research project in partnership with Brunel University London and the University of Roehampton. The study will focus on what learning gain or “distance travelled” means for students in our universities, how it can be measured and used to benefit students and graduates, as well as inform universities and employers. Learning gain is not restricted to academic advancement but will also include confidence (academic and personal), employability and work-readiness.

If you decide to participate in the research you will be asked to complete a short questionnaire which we estimate will take 15 minutes to complete.

You will also be invited to participate in further surveys so we can understand your progress, and if you consent, we will invite you to an interview or focus group meeting during later stages of the research. Interviews and focus group meetings will be audio-recorded and led by an experienced interviewer/moderator who will brief you before the session commences.

Participation in the research is completely voluntary and you will not be disadvantaged if you decide not to participate or decide to withdraw at any time during the research.

More information on the research study can be found at:

<https://www.uel.ac.uk/Research/Continuum/Projects/Omnibus>

### **Use of Data**

We will also access some of the demographic data you have provided to the university along with information about your attainment. All data will be anonymised and individual students will not be identifiable in the research. To find out more about what data we are accessing and how we are using it please see our associated *Data Information Sheet*.

### **Confidentiality of the Data**

The data (demographic information, attainment data, completed questionnaires, any audio recordings and transcripts of interviews and focus group meetings) will be stored on a password protected computer at the University of East London. All forms will be anonymised and codes/pseudonyms will be assigned to participants in the transcripts. The data will be destroyed after a period of seven years.

### **Location**

The research, which includes surveys, interviews and focus group meetings, will be undertaken at each of the partner institutions: University of East London, Brunel University London and Roehampton University. Data processing, transcription, analysis and writing-up will be undertaken at the University of East London.

### **Remuneration**

Participants will not be remunerated for participation in the research and evaluation.

### **Disclaimer**

As noted above, you are not obliged to take part in this research and evaluation and are free to withdraw at any time. Should you choose to withdraw from the research and evaluation you may do so without disadvantage to yourself and without any obligation to give a reason.
